Przychidza na mnie godziny zwatpienia  
Gdy trace wiare w twoja dobroc  
W twoje milosierdzie, w twoje milowanie  
W Wole zbawienia, w twoja istnosc I wladanie  
Then I want you to come to heaven in lightnings  
Surrounded by flames  
Full of strength  
God full of glory  
Even in your eyes  
Hostile spars burnt for me  
As you die, my soul dies in me  
Night great and eternal stretches out  
Abyss open up before my thoughts  
Unpenetrated and unknown  
Appear, appear  
High in the sky  
In the chariot of fire  
Strike me with your thunder  
Shine like hatred in my eyes.
