Moments pass you by
Lights below the sky

You, as colourful as ever

Take a picture now
Let us be again
Fall into the clouds
Quietly

Shadow of your heart
Oh lay down your guns

You, as beautiful as ever

Take a picture now
Let us be again
Fall into the clouds
Quietly

Fall into place where you'll find
Falling from your grace is not a war with yourself, now

Everything else keeps running out
Face fear don't run run
