Little tired
A little rough around the edges
But sure I'm doing fine
All alone
You'll drive me crazy if I let it
But I'm getting by
I see you've got everything you need
With somebody new
Wish I could say
Things were the same for me
I could use a little you

CHORUS:

Round the clock
Little pillow talk holding
Moonwalk on the sand by the ocean
On the couch with all the lights out
In your living room
Lovin' like lovers do
Lonely's just fine
But I could use a little you

Last we talked
You had trouble with the engine
But that car sure made it out of town
No you're right
I agree with your decision
You seem happy now
I know love goes away
Now girl you're living proof
When hearts break
One of them always stays
And I could use a little you

Chorus

I could use a little road trip to forget
Take a little cruise ship to sea
But it's a sure bet I won't get far
Without you with me

Chorus

I'll be just fine
But I could use a little you
A little bit of you

Round the clock
Little pillow talk holding
I could use a little you
I could use a little you
