I ain't falling in love with you tonight  
Yes Ma'am, you heard me right  
A soft place to fall when it's cold is always nice  
But I ain't falling in love with you tonight

How many times have we gone this route?  
To be honest I've lost count  
I've been thinking and I think I'm drawing the line  
I ain't falling in love with you tonight

This old town's been all we've known  
Everybody else has all moved on  
Let's be honest now, convenience has had it's price  
I ain't falling in love with you tonight

Well, let's face it we ain't kids no more  
Old Father Time's been keeping score  
Me and you, we've had ourselves some times  
I ain't falling in love with you tonight

Yes, I'll give you a ride home  
Yes, I'll walk you to your door  
Now finish your beer but get that look out of your eyes  
I ain't falling in love with you tonight

Quick now, you go on in  
It's cold in this midnight wind  
Let's part ways while my resolve is high  
I ain't falling in love with you tonight

I know it's late now, pardon the call  
But did I leave my coat in your hall?  
Well, I'm gonna come look for it right now if that's all  
right  
But I ain't falling in love with you tonight
