"How Blue Can You Go?"

Visit "[How Blue Can You Go?](#)" on MotoLyrics.com

How long is your highway
How strong is your soul
How round are your wheels tonight
How blue can you go?

How swift of a stallion
Through the dunes to the coast
How wide of an ocean
How blue can you go?

Chorus:
In the blue far distance
There must be something to show
For all that's chased you all these years
How blue can you go?

How fast is one raindrop
Alone on the path it chose
How does it hold itself together
How blue can you go?

Chorus:
In the blue far distance
There must be something to show
For all that's chased you way out here
How blue can you go?

How quite is stillness
How peaceful the sound
Will you ever rest at all?
Till the edge of your blueness is found
Till the edge of your blueness is found
Till the end of your blueness is found
