### "Something To See"

Visit "[Something To See](#)" on [MotoLyrics.com](https://MotoLyrics.com)

All these years have been sublime  
I've run wild and free  
I've been burning down the road  
It's been something to see

But this season the winds have changed  
Something new on the breeze  
I turned to look and there you were  
And it was something to see

So slip your hand inside mine girl  
Let a lock find it's key  
Swing the gates to my world wide  
It'll be something to see  
It'll be something to see

Sometimes things just don't add up  
One and one's not three  
But when I'm standing next to you  
That's how it seems

CHORUS

I don't know how this all will turn out  
Confusing as can be  
But when it does I'm confident  
It'll be something to see

CHORUS

It'll be something  
Really something  
It'll be something to see  
It'll be something  
I'm talking something  
It'll be something to see
