Oh Woah, Yeah, Yeah

Starting off our relationship was intact,
You know the crazy kind of love? We was in that.
Everywhere we go, we hand in hand
If you aint at my place, talking on myspace.

Couldn't stop us we was in it for the long run
Had our friends and family thinking we was all one
Aint no telling where this road would lead,
You did what no one else did
Showed me what love is.

Now I can't believe I let it slip away,
Stupid me for thinking you were here to stay
Wish I could go back
Wish I could rewind the track
Cause I would have never have played that

I wish that I could...
Turn it back to the days it was all good
Turn it back, if I could, girl than I would
Turn it back, you can bring me, cause I would
Wish I could just rewind.
Cause I'm...
Turn it back, we can start all brand new,
Turn it back, no more I can't stand you
Turn it back, give me one more chance too.
But it's gonna take time...

Cause I take it to a corner till you met me
Ill make it right
Turn it to a half past, let me
Kiss you goodnight
I just wana say I'm sorry
Did you end my life?
Girl I'm begging you.

Turn it back to the days it was all good
Turn it back, if I could, girl then I would
Turn it back, you could bring me, cause I would

But I promise, I can make it, make it, better this time.

I keep realising that I couldn't live without you
Call but hang up everytime that I'm about too
I just don't know what to say to you
Cause I messed up so bad
Baby I know that.

And I see you got a couple new friends now
On your page hoping that this thing to end now
Tell me baby what I gotta do
To erase my mistakes
Love you till the first stage
Till I didn't stop putting you first
Should've seen your break lights before you reversed
Now I hear the clock stopped ticking
And you've got wishing so hard

Turn it back to the days it was all good
Turn it back, if I could, girl then I would
Turn it back, you can bring me, cause I would
Wish I could just rewind.
Cause I'm...
Turn it back, we can start all brand new,
Turn it back, no more I can't stand you
Turn it back, give me one more chance too.
But it's gonna take time...

Cause I take it to a corner till you met me
Ill make it right
Turn it to a half past, let me
Kiss you goodnight
I just wana say I'm sorry
Did you end my life?
Girl I'm begging you.

Turn it back to the days it was all good
Turn it back, if I could, then girl I would
Turn it back, you could bring me, cause I would
But I promise, I can make it, make it, better this time.

If I could go back to the day that we met
I'll make every right turn round and left
(Girl) [I hear what your saying
But I need to know that your not playing]
I know our futures on the line
And I know I'm walking on thin ice
But I refuse to let you go
Go without ya
I dont wana lose ya
Thats why I have to turn back time

Turn it back to the days it was all good
Turn it back, if I could, girl then I would
Turn it back, you can bring me, cause I would
Wish I could just rewind.

Cause I'm...

Turn it back, we can start all brand new,
Turn it back, no more I can't stand you
Turn it back, give me one more chance too.
But it's gonna take time...

Cause I take it to a corner till you met me
Ill make it right

Turn it to a half past, let me

Kiss you goodnight

I just wana say I'm sorry

Did you end my life?

Girl I'm begging you.

Turn it back to the days it was all good
Turn it back, if I could, girl then I would
But I promise, I can make it, make it, better this time.
