Alecia Nugent:

Far beyond lonesome at the end of the line
Just short of crazy I made up my mind
That I'm gonna love you the best that I can
You don't have to return it, it's out of my hands

Both:

I can't make you love me, God knows I've tried
These days I'm used to the taste of my pride
I've thought it all over and to tell you the truth
When it comes down to us
It's all up to you

Bradley Walker:

Maybe you love me, maybe you don't
Maybe you'll need me, maybe you'll won't
It don't really matter you're a bridge I won't burn
I've made my decision, now it's your turn

Both:

I can't make you love me, God knows I've tried
These days I'm used to the taste of my pride
I've thought it all over and to tell you the truth
When it comes down to us
It's all up to you

Bradley Walker:

I'll love you forever

Both:

That's all I can do
When it comes down to us
It's all up to you
