Might as well give it a try
I get excited when I see the light
Looking for a reason why
I should know

I-I-I
I know I know, you don't all agree
and now you're disappointed in me

But I'm a rebellion and I wanna be free, so
And they call him Black Sunshine
Oh-ooh will be gone for a while
'Cause I'm gonna get myself a new best friend

Until the end, I love him 'til the end
End, ay-end
I love him 'til the end
End, ay-end

My black sunshine
Until death do us part
Got a bad cracked light
I can't see far

The gravel leaves me scarred
But this love got me hurt
I-I-I I know I know, you don't all agree
and now you're disappointed in me
But I'm a rebellion and I wanna be free, so
And they call him Black Sunshine Oh-ooh will be gone
for a while
'Cause I'm gonna get myself a new best friend
Until the end, I love him 'til the end
End, ay-end
I love him 'til the end
End, ay-end

My black sunshine
