You plus me  
That's all we need  
You plus me  
That's all we need  
So just let yourself go  
Until that place we know  
Everything moves slow  
Until we lose control  
Now can you feel the heat  
When our bodies meet  
It's like chemistry  
Baby it's you plus me

You plus me (x8)

You plus me  
That's all we need  
Baby you plus me  
That's all we need  
So just let yourself go  
Until that place we know  
Everything moves slow  
Until we lose control  
Now can you feel the heat  
When our bodies meet  
It's like chemistry  
Baby it's you plus me

You plus me (x8)

You plus me  
That's all we need  
Baby you plus me  
That's all we need  
So just let yourself go  
Until that place we know  
Everything moves slow  
Until we lose control  
Now can you feel the heat  
When our bodies meet  
It's like chemistry  
Baby it's you plus me
