He is guiding us now to the right way
Taking us now his love remains the same
So better are you here?
Give some voice to my ear
You bring life... oh

An attacked of lightning hitting to my brain
You illuminate as a gift stays the same
A better miracle you put me through
Stagnant water has been flowed
You bring life... oh.
Undeniable

Cho
You taught me how to live in this whole free world
To get into real... destination... whooah.

Cruel times are just rolling you...
Behind your scene there's dramatic life given
I tried to dig gold but already bear
I tried to fear night but there's night like day
Oh life...

Cho.

Destination...
