she said youâ€™re going insane,
just promise youâ€™ll drop my name,
when you drop off the face of the planet,

you took me for granted,
now Iâ€™m finding my way home alone,
leaving you swallowing silence for two,
just blame it,

fall on me,
fall on me,
fall on me now,

tell all of your friends,
all that remains to be said,
three little words and the end,

you can take it all back,
or watch this all fade to black,
your problem, you claim it,
just turn your back and blame it,

speak low if you speak revenge,
dangerous game called pretend,
hands to the matches,

weâ€™re throwing a spark,
stuttering lies to keep the truth in the dark,

and Iâ€™ll keep breathing because youâ€™re choking me
out,
and Iâ€™m sick of being in your shadow of doubt,
but thatâ€™s what I get for mixing pleasure with pain,
so Iâ€™ll turn the clock back,
and wait for the rain to

fall on me,
fall on me,
fall on me now,

tell all of your friends,
all that remains to be said,

three little words and the end,

you can take it all back,
or watch this all fade to black,
your problem, you claim it,
just turn your back and blame it,
