As time passes by  
Girl weve had our ups and downs  
But there's one thing I know  
To be certain  
Girl weve really got sweet love  
The problems weve over come  
Make us stronger everyday  
As we wake to the morning sun  
It gives me one more chance to say  
That I really love you girl  
And with you my heart will stay  
And there's one thing that I know  
Cant be taken

CHORUS

We got our love  
We got our love  
We got this love  
Its the only thing that life dreams of  
As day slips slowly slowly into night  
Oh how our youth just fades away  
Don't you know well be  
Walking hand in hand baby  
Oh together on lifes highway  
Cause I'll never leave this love  
Its the best thing that Ive known  
I wouldn't pass you up  
And you will never be alone  
Im so in love with you  
Youre the reason why I breath  
This is the one thing that I know  
Cant be taken

CHORUS

Its the only things that life dreams of  
I dreamed of true love  
Its the only thing life dreams of  
Then I found you  
And there's nothing more I need  
Cause you're everything Ive ever hoped for  
Im so glad that
