No I haven't seen Annie but last night I was told
She went to work Tuesday morning and never came
home
Now missin' person posters are goin' up all over town
And my bride to be is nowhere to be found

They wrote "Annie we hope you're ok!" on a sign
outside her laboratory
And they're lightin' candles and leavin' flowers by a
picture on the corner of Amistad street

No I haven't seen Annie and why are you askin' me?
I mop the floors in her lab and keep the mouse cages
clean
I'm not sure if that girl even knows who I am
I ain't no Ivy League grad student I'm just a custodian

They wrote "Annie we hope you're ok!" on a sign
outside her laboratory
And they're lightin' candles and leavin' flowers by a
picture on the corner of Amistad street

Yes I've seen Annie she was just on T. V.
They said she was strangled in her laboratory
The police found her body on her wedding day
Now they're going to Cromwell and surrounding the
Super 8

They wrote "Annie we hope you're ok!" on a sign
outside her laboratory
And they're lightin' candles and leavin' flowers by a
picture on the corner of Amistad street
