I dreamed about Edward last night
Up on his podium on the field at Fallston High
The sky was turning gray as the band come across the track
One summer we ran away and only one of us came back

He sat next to me in the stands
And we're reminiscing like we're just two old friends
He talks about the past like it didn't matter much
I guess he still don't know what really happened between us

I dreamed about Edward last night
Sittin' alone up in the stands at Fallston High
I ain't some deadbeat dad pretending I'm part of his life
I'm just takin' advantage of my visitation rights
