[Verse One]

Now listen the kid with the new found vision  
sound Christian, the old me found missing  
I don't miss him I'm on a mission  
Commissioned by an Author who's telling iller stories  
then John Grishom  
Mind twistin, you would think it was this then  
He's known for flipping the script and giving them  
something different  
For instance isn't death irreversible-  
But the instant you're found in Him now it isn't  
How terrific how He fixes our afflictions, the epitome of  
all out altruism  
All to Him is going all I have cause all I owe  
I don't deserve Him at all y'all I know  
All the woes, all the burdens of time  
Combined and loaded down on one man's mind  
Is all too kind and light of a situation  
In light of the one eternal dilemma that man is facing  
Try leaving the land of the living  
And stand before the Lamb without having your sins  
forgiven  
This is a no win situation, unless you know Him cause  
then your placed in  
Relationship that's safe so when it's all over  
Just know that it's just beginning for those who call  
upon Jehovah  
We'll take off this flesh and put on fresh type skin  
We don't know what we'll be but we'll be just like Him  
Through out all the centuries, all who've fallen to sleep  
Whether burned at the stakes or sawn into pieces of  
lost in the deep  
Or tossed into steep pits and left for dead  
They'll lift their heads and all get to breath then  
Looking back at this life won't even add up  
Compared to eternity earth won't even matter  
So death is not my enemy anymore, it's only a key to a  
door  
So hit me with a shotty a Maserati a pestilence or sword  
Me absent from the body means I'm present with the  
Lord

[Chorus- X2]

If Christ is not risen, we won't rise with Him  
If He's not returning, we won't fly with Him  
But since He's risen and since He's returning  
We'll be living with Him in heaven for eternity

[Verse Two]

The truth has been cited  
We've learned after Christ' return the bride & the  
groom are united  
With His introduction, to show sin's destruction  
This body of corruption puts on incorruption & shares  
His perfection  
Receive the life He gives & see Him like He is like His  
mirror's reflection  
He'll soothe in love, no tear ducts, hair plugs, or  
airbrush  
Removal of the worst of infirmities  
With Christ the Lord in paradise-  
Restored & have our life's applaud in worship eternally  
The R without Eric B & them, Regenerated from our  
legacy of sin inherently  
Within plus He's the resurrector  
Who brings us back like rewind wheel it up selecta  
Rude boy derelicts fiery lake inherited  
While what must I do to be saved becomes rhetoric  
Not a relevant question  
Cuz Christ righteousness sliced our beef like a  
delicatessen  
When God's done assembling  
No need for the r for restrains but the r that remains for  
the remnant  
We'll proceed from the White throne, to an eternal life  
zone  
Thru His gates we'll breeze like a cyclone  
To kick it with Christ who paid iniquities price & He'll sit  
as the light  
Enthroned & this home is the city of life  
It's the earth's new edition like Ronny, Bobby, Ricky &  
Mike  
Just day for us to live in  
Never have a good night that God blessed like his  
name was Russell Simmons  
It will be splendid, sin's not remembered  
All cuz He rendered sin's debt rescinded  
Not redundancy but a new scene where life abundantly  
is routine
