#### Verse 1

Let's have a very fast vast cardiovas. blast to spark  
your heart and arteries like when artillery flash  
If you're feelin' me fasten your seatbelt  
my fault  
your aint know this heat melts ice grills like rock salt  
Well we'll deal with that later I'm just the facilitator here  
to present a way of life full of thrills in the savior  
couple of pills and a pager does not make an MD  
couple of ill little sayings does not make a MC  
couple of wheels on the table does not make DJ and me  
on this track alone would not be a relay  
we will not take it easy let's turn it up a notch  
I'm trying to pass the baton it's time to burn it up-  
Shabach  
We on the corner with thugs  
streets infested with drugs  
even in some clubs preaching Jesus is love  
it might be hard at home  
hard heads won't follow  
only in his home town is a prophet without honor  
in England they holler hallelujah Hosanna Hosanna  
here we hold up a banner for them saints in the  
slammer  
in Africa where it's realer than the streets in the hood  
we aint just say it but we showing people God is good  
God is God  
king of kings and lord of the lords  
around the country with a message money can't afford  
price was paid  
back inside of U.S. of A.

united saving of America in Jesus name

#### Chorus

We gonna take it to the west  
where we going next  
We gonna take it to the east  
and where we going after that  
We gonna take it to the club  
and then we gonna touch down

We gonna take it to the street  
just so we can break it down

We gonna take it to the crib  
where we going next  
We gonna take it to the park  
and where we going after that  
We gonna take it to ya head  
and then we gonna touch down  
We gonna take it to ya heart  
just so we can break it down

2nd verse

A wise man once taught me how to serve the Lord  
said if there's anything you won't do then there's really  
nothing you can do for Him  
If that's so then there's something I need to know is  
there anything you won't do or anywhere you won't go  
Man what you talking about  
I go to Wichita which is out in the Mid-west helping  
witches out of Wicca with the Pauline account  
then I bounce back to the ruggedest hood giving a  
heads up to the heads that are up to no good  
to my native American heads living that Rez-life come  
get a resurrected life from the dead through Christ  
Holy Hip-hoppers follow this blazing pace as we're  
running this amazing race with amazing Grace -  
For the weak and the lame  
we extinguish the flames  
tribal music you can use understand and you'll gain  
make sure you run with it quick  
for the Lord we spit but the hood wants to see how raw  
we get  
we go to Atlanta and open with our music bro and you  
should see how many thugs love a Gospel show  
hitting cats in Iraq  
from France to India  
doesn't matter the language when the Holy Spirit is in  
to ya  
to injure your walk  
if you're crooked you fall  
we power walk even for my people out in Nepal  
beyond the calling  
we're lending out hands to those falling  
cause this amazing race is the true meaning of touring

Chorus

3rd verse

For some the American dream is a nightmare but  
imagine having a taste of heaven while you're still right

here

God has arranged it so that those living across long  
ranges don't have to be lone rangers and remain  
strangers hanging in a zone of danger  
God became a lamb to appease His own anger  
and if Jesus had never come and been born in a  
manger then God would still be bent out of shape like  
clothes hangers

now we gonna take this all the way to Bangkok and all  
the places around the known world that you can think  
of

to let'em know that this world is on the brink of  
judgment and that it's time to wake up and smell the  
Sanka

cuz sin can sink us like anchors tied around ankles if  
you're not sanctified then your bound to get tied up  
and tangled inside of it like Matthew Broderick trying to  
take a day off go a day without walking with the Lord  
watch you'll end up way off -

School is in session the lesson that we're addressing is  
a blessing it's necessary for you and your protection  
we're hoping this message doesn't fly over your head  
once this song is over your life could be over instead  
if you're bowing your head to the Father lift Him up in  
your prayers tell Him you're sorry and forgive me for  
living life like a player

say word

I don't need herb to reach the sky

I'm on my way to South Park eating punch an pie

yes sir

that's the reason why we're lesser to Him

who else you know that could resurrect the Shabach  
from sin

please dog I don't want to see you dead at the end so  
for the record we gon' tell you where we going again

Chorus
