### "Shock Treatment"

Visit "[Shock Treatment](#)" on MotoLyrics.com

Psychosis  
Pathologically driven to homicide  
Perception torn apart

Confined to his padded cell  
Foaming at the mouth  
In his private hell

Frozen minds, wretched lives  
Lightning strikes and they're neutralized  
Therapy of misery  
Electrical lobotomy

Electrodes wired to the brain  
A jolt of reality  
For the insane

Power surge, sensory overload  
Strapped tightly down  
Until convulsions cease

Frozen minds, wretched lives  
Lightning strikes and they're neutralized  
Therapy of misery  
Electrical lobotomy

Wheeled into the room where you'll be from now on  
Strait-jacket unnecessary your resistance is gone  
Vegetable in the corner staring into space  
You're easier to deal with in a catatonic state

Give me shock treatment!
