Boom, boom, boom, all I need is the bass  
Louder, louder, louder put your hands around my waist  
Pumping, pumping, pumping, my heart's like an 808  
Bumping, bumping, bumping, speakers jumping out  
this place!

We're moving, to the cloud  
This music is so loud  
I only wanna see the light  
I wanna see the light  
Cause tonight, this is the life  
Break it! Break it!

Sad to say, light the way  
I'll do any... tonight  
Sad to say, light the way  
I'll do any... tonight

Boom, boom, boom, all I need is the bass  
Louder, louder, louder put your hands around my waist  
Pumping, pumping, pumping, my heart's like an 808  
Bumping, bumping, bumping, speakers jumping out  
this place!

It's time to make a move, cause we got nothing to loose  
Break it, break it!
