Verse 1:

So we gon' get it, until we got it good  
So we gon' get it until we got it, got it, got it  
Here it is. What?  
It's time to teach us my devise and get your hands up  
How 'bout we start another riot through the King Tut  
So stick your J Lo in that ass, shake your damn butt  
Just shake your damn butt

It's time to take a break,  
I know you're overworked, and probably underpaid  
That's ok, say what.  
Whatever, this job sucks  
Whatever, he's a schmuck  
Whatever flip the duck, shake your butt

Chorus:

Follow me, follow me we're taking off today  
Follow me, come and see, I got your getaway  
Running free, on the streets, it's like a holiday  
Couldn't care less, don't stress, just say whatever  
Whoa-whoa-whoa  
Just say, just say, just say whatever  
Whoa-whoa-whoa  
Just say, just say, just say whatever

Verse 2:

So here's the pay-up  
Let's party like it's all we can, at Burney made-offs  
(?)  
Come on and open up your mouth and just say "a"  
Weather you quitting or you know you gettin' laid off  
Just take the day off

He-he-he-hey, hello my name is Kay  
I've the beats like Dr Dre  
And I just baked you a cake  
Celebrate say what?  
Whatever break a glass, whatever burn some cash  
From here to Halifax, shake your ass

Chorus:

Follow me, follow me weâ€™re taking off today  
Follow me, come and see, I got your getaway  
Running free, on the streets, itâ€™s like a holiday  
Couldnâ€™t care less, donâ€™t stress, just say whatever  
Whoa-whoa-whoa  
Just say, just say, just say whatever  
Whoa-whoa-whoa  
Just say, just say, just say whatever

If you wanna f\*ck with my crew, then you can come too  
Thereâ€™s only one rule  
Just say whatever  
If yo wanna be in my scene, just say what you mean  
StoW, oh-oh  
Break it down now  
Whatever

Chorus:

Follow me, follow me weâ€™re taking off today  
Follow me, come and see, I got your getaway  
Running free, on the streets, itâ€™s like a holiday  
Couldnâ€™t care less, donâ€™t stress, just say whatever  
Whoa-whoa-whoa  
Just say, just say, just say whatever  
Whoa-whoa-whoa  
Just say, just say, just say whatever  
Whatever, whatever
