I'm sick of living under everybody's shadow
I'm sick of everyone's success, I know that's shallow
I sick of hearing people lie to get by, to get by
I'm sick of people that can't look me in the eye all the time
I'm tired of girls, I'm tired of boys, I'm tired of nonsense
I'm t-t-t-t-t-t-tired of the process
I'm sick and tired of always feeling second best
I'm tired of never ever making any progress
To all the cool kids on my block
Where's there original thought?
Tell me
Oh yeah you never heard us
Don't ever try to turn us down
We're making all the noise
We're making teenage sounds
It's the same old song and dance
We're sick of everybody trying to be famous
I'm sick of always operating out of fear
I'm sick of being called a fag because I'm queer
I'm sick of everybody saying to be happy (ha ha ha ha)
I'm positive that I'm allowed to have a bad day
I'm tired of everybody trying to be a DJ
I can also pick my favorite songs and press play
I'm sick of people saying rock 'n' roll is dead
Learn how to play guitar and save yourself instead
To all the cool kids on my block
Where's the original thought?
Tell me
Oh yeah you never heard us
Don't ever try to turn us down
We're making all the noise
We're making teenage sounds
It's the same old song and dance
We're sick of everybody trying to be famous
The truth is hard to swallow when it's true
The truth is hard to swallow when it's choking you
The truth is hard to swallow when it's true
The truth is hard to swallow when it's choking you
Oh yeah you never heard us
Don't ever try to turn us down

We're making all the noise
We're making teenage sounds
It's the same old song and dance
We're sick of everybody trying to be famous
I'm sick of everybody trying to be famous (x4)
