A christian an anarchist slash prostitute figures out the  
true  
Meaning of freedom not freedom like america  
freedom like a  
Shopping cart kick back no tense you got a bag of grub  
that cost you  
About 50 cents no fear no fuckin feat malt liquor tastes  
much  
Better on the street crustin away of life for heroines  
and heroes  
Who hitch hike the road to eden not eden like the  
garden state,  
Eden like the state of mind kick back cheap thrills.  
You'll do  
Anything for a laugh even if it kills you the bridge you  
took it out  
The ticket takers suddenly lost count sleeping under  
rays your teeth  
Crumbling away say goodbye to all responsibility you  
never wanted  
It man wasting time whenever you get the chance  
which happens to  
Be all the time kick back free meals a couple times a  
day, you make  
A couple of shady deals no work no fuckin pay  
cardboard  
Condominium by the bay you're between the red &  
black and  
You're never goin back to all responsibility cause you  
never wanted  
It man
