Hello dear there somthin' on my mind
There somethin' between us I can't find
Can please please show me the light
Because with you I refuse to fight

It's cause you have a new girlfriend
She gives you better head than me
It's cause that guy that you hide
I heard he can make you scream

I guess I'm a shmo
You have better people to fuck than me
I guess that I'm the jerk
That lets you fuck who ever you please

We used to have such good times
You lay before me as I tell you my mind
I listen as you talk about some girl
You said some day she'd be your wife

I guess I'm a shmo
You have better people to fuck than me
I guess that I'm the jerk
That lets you fuck who ever you please

By the way Bitch! You kiss my god damn ass
Eat shit and die you dirty fuckin' slut
Fuck off you stupid fuckin' cunt
I hope you choke on toxicshock
You fuckin' Duchebug
