Open your self, let me inside  
Open your arms, I have nowhere  
To go, so let me in to you  
I need to be where nothing can hurt me

Open your legs, to let me crawl  
Inside of you, I need to be  
Inside your womb, so take me home  
Inside of you, envelope me, I'm home

[Chorus:]  
Bringin' me down [x2]  
*I wanna be your baby*  
Bringin' me down [x3]  
*I wanna be your baby*  
Bringin' me down

*Open your lips and take me in*  
*I need to be inside within*  
*Let me become a part of you*  
*Let me inside of you, swallow me whole*

*I want to know the things you hide*  
*I want to feel the things you feel*  
*I want to breathe the air you breathe*  
*I want to live inside of you, take me*

[Chorus]

*Let me live inside [x4]*
