[Originally by The Avengers]

At first I thought you were dead But now i see that  
you're wanted dead Something I did, and they say  
yeah yeah Blank gen, blank gen(eration) Open your  
eyes Open your eyes Can't you see what's going on  
Open your eyes Open your eyes Can't you see what's  
going wrong Open your eyes Well they tell you lies and  
you sing along Open your eyes Well they tell you lies  
and you sing along Something about destruction  
Television corruption Yeah you've been blind You better  
make up your mind Open your eyes Open your eyes  
Can't you see what's going on Open your eyes Open  
your eyes Can't you see what's going wrong Open your  
eyes Well they tell you lies and you sing along Open  
your eyes I don't know the words to this stupid fucking  
song Open your eyes... ahhhh Open your eyes.
