Hangin' out in long beach. a lil' party in the sun, but ya just can't sit there smoking and drinking anymore. you got a new jive. all your friends are getting weird. ahhh! it goes, "you ain't a shakin till the shit shot. shoot it up. no one jammin' til the gin juice jigger jets. they say it ain't a party until the party enema, the party enema. you get a funnel tube, pour in a 40 oz. pull down your clothes, touch your toes. get a hose, hold your nose. it's a party hat. forget the beer bong. forget the nitrous shots. it goes "you ain't a shakin till the shit shot. shoot it up. no one jammin' until the gin juice jigger jets. they say it ain't a party til the party enema, the party enema. the party enema, the party enema. the party enema, the party enema.
