Can't u see how easy it becomes
Procrastinate, we're professionals
Get things done, you can't, too busy
Having fun we're professionals

Professional crastination it's a way
Of life if you've got lots of time

Put it off cause tomorrow sounds
Much better than today

Always late, not sometimes, occasionally
Consistently, we're professionals

Professional crastination we're living
In a procrastination

Why can't we ever be on time?

Professional crastination it's a way of life
If you've got lots of time

Professional crastination we're living
In a procrasti-nation
Professional crastination
