Never fell in love until i fell in love with you  
Never know what a good time was until i had a good time with you  
If you wanna get the feeling and you wanna get it right  
Then the music gotta be loud for when the music hit i  
feel no pain at all Warm summer night i was drinking  
with my dad He tried to give me the love that i never  
had But he gave more love to his bottle of wine So i had  
to go out and find love of another kind Here it is Here i  
am Turn it up fuckin' loud Radio, Radio, Radio... When i  
got the music i got a place to go Radio clash  
magnificent 7 I was a choir boy you showed me no  
heaven Two tools surely lost no remorse ignoring the  
cost.
