"Think Twice"

What do you want?
Once the fighting starts will it ever stop?
Is that what you want?
Violence building up until it tears us apart?

Open your eyes
Don't let it blind you

What did you say?
The way that you act was just the way you were raised?
Well all I can say
Is that you have a choice not to act that way

You're taking it to far and tearing apart
Everything we've built
And there's a price that we pay
For all the violence you create
So think twice

Because it's taking a toll
We're headed for a fall
So think twice

You can leave it behind
If you unlock your mind
