In the Hundred Trillion Cells  
That Constitute your Beef Parts  
You couldn't muster one against Me  
Lyrically you Retards  
Enter Hyper Space  
Exploring the spaces inside your Minds Eye  
Where Three Dimensional Tetrahedrons  
Take off and Fly By  
My brain is Contracting  
It's Sensory Center Activates  
Protoplasmic fibers extending to Help it Calculate  
Beware of the Succubus souls  
That Drain your Life Force  
On a White Horse  
The Skeleton Pale  
Walk toward the Light Source  
Your Frantically searching for Something  
To Bring you Peace of Mind  
The Blind lead the Blind  
You will find the Divine  
Is Intertwined  
Extra Sensory Perceiving Positron Emission Region  
To the Non Believing Collegians  
The Earths a Cage for Breeding  
We Superseded our Predecessors despite the Pressure  
There's always Parasites that latch on  
When the Rhymes are Fresher  
By Every measure of the Word  
Abduct your Brain Waves  
Your nothing more than a chained up Slave  
In the Space Age
