"Walk Away"

Visit "[Walk Away](#)" on MotoLyrics.com

There's something burning on the stove
That's my life I hope you know
See it all go up in flames
I will never be the same

Please don't walk away
Cause you may never hear me say
Come take my hand
I will ride with you on this carousel of life
Cause it has it's ups and downs

When I fall down will you pick me up
Can you still give when I've had enough
Can your grace cover all my shame
And will you always recall my name

A perfect love and yet you hold
A sinful child who has grown cold
Why must you be so kind
Giving me what is not mine
You gave me...your Son
