You're wasting my brain
None of you will save me

Wake me up from this nightmare, sober,
You're so disgusting

No, hold me, love
(You are fallin' down)

Wake me up from this nightmare, sober,
You're so disgusting

Too late, you swore "I'll wait for you"
They're surrounding me,
Too late, you swore "I'll wait for you"
They fester, my flesh.

You're wasting my brain
None of you will save me

Wake me up from this nightmare, sober,
You're so disgusting

No, hold me, love

You're wasting my brain
None of you will save me

Wake me up from this nightmare, sober,
You're so disgusting

No, hold me, love
