

Ready, Set, Fall! **"Skyscrapers"**

Crush the enemies
And their weakness

I dare to rebel

A thousand warriors staring at me
Encourage the wrath inside of me

Like a shooting star that brings no luck

(X2)Give your smile a plea to shine,
Don't speak, don't even try
Hold your breath for suddenly
Water circled our feet

I won't let this end,
I've promised myself,
I'll break, this doom with my hands
My will is to bend
Our ghost in the past,
Deserve, much more than this hell

(X2)Give your smile a plea to shine,
Don't speak, don't even try
Hold your breath for suddenly
Water Circled Our Feet
