Your set smile won't cheat even a child
I pretend I do not understand
I stay where I stand
This is bitter, bitter love, my friend

Go on and enjoy the admiration and love, oh, boy
Pretend you do not understand
The mercy you lend
This is bitter, bitter love, my friend
This is bitter, bitter love, my friend

Here is my new dress
The bee's flying away
Hope some day...

How on Earth it happened to me?
You were narcissus and I was a bee
But I won't bend my knee
Your set smile won't cheat even a child
I pretend I do not understand
I stay where I stand
This is bitter bitter love, my friend

Go on and enjoy the admiration and love oh boy
Pretend you do not understand
The mercy you lend
This is bitter bitter love, my friend
This is bitter bitter love, my friend

Here is my new dress
The bee's flying away
Hope some day...

How on Earth it happened to me
You were narcissus and I was a bee
But I won't bend my knee
That was bitter love, but now I'm free
That was bitter love, but now I'm free
