My dear, dear darling sister
I know that you are around
Maybe striving somewhere
You look at me with empty eyes
I know you, but this glare
Nothing, but ice

How could I left you there
How could I left you there
There
I hoped you felt the same
I hoped you felt the same
Same

So what you gonna do now?
Averting your face from us
It's not a reprieve
You have to try with all your might
We will be near to help
Then you'll believe

How could I left you there
How could I left you there
There
I hoped you felt the same
I hoped you felt the same
Same

We'll nibble sunflower seeds
And laugh by watching TV
Like we used to
Eyes will turn into shining stars
Your smile will make me happy
The beast is gone, the beast is gone

How, how
How could I left you there
How could I left you there
There
I hoped you felt the same
I hoped you felt the same

Same
