Chorus:

Oh babe, can't you stay,
Waiting more, for the day?
Take the stair,
We want to say that we love you,
I don't wanna let them take you from me, babe.

Baby, don't you see you're bleeding?
Don't you see her whipping?
She's far away but close to me,
And hopefully I'll make it there.
We'll brake down all our enemies,
They never were friends of me,
Those people were defending me,
My problem was defending me, basically.

Chorus:

Oh babe, can't you stay,
Waiting more, for the day?
Take the stairs,
We want to say that we love you,
I don't wanna let them take you from me, babe.

So she leaves,
I gotta breathe,
I can't believe that it's happening to me,
It ain't me!
It can't be!
Way solar that it needed to be!
Hey it was everything I fought for,
â€¦
She ain't know about the down fall,
She ain't ever hadâ€¦
My addiction is affection,
â€¦I don't need no protection,
Would you let me give it all, just a question,
You have my heart out,â€¦dissection,
You're beautiful, Evelyn,
I'm a lotâ€¦
â€¦
This having been said:

Chorus:

Oh babe, can't you stay,
Waiting more, for the day?
Take the stairs,
We want to say that we love you,
I don't wanna let them take you from me, babe.
Oh babe, they need me now,
I've been waiting here forever,
I've been on the ground,
If they love me then they'll never be tired of my sound,
Cause I've been workingâ€¦
Oh babe, can't you stay,
Waiting more, for the day?
Take the stairs,
We want to say that we love you,
I don't wanna let them take you from me, babe.
