I think I can fix you
(Leonia Lewis)
I am lost
cant find my way
you were born
when im awake
if you're there
I will feel for you
I just need to numb the pain

Chorus:
will you fix me?
wil you show me how to breathe?
for all is gone and though my hope is lost (yeah, yeah)
will you fix me?
will you give me what I need?
I love you (I love ya)

Rich Hill:
When im lost cant find my way
when its lost
it finds me someday
and when im gone
im gone away
when its gone its gone away
I never knew that but I think I know now
Ill never get back what I used to throw out
im alone and its real but I donâ€™t know now
my heart is all I have and my brain is wearing out

Chorus

Oh oh oh oh oh oh oh oh oh oh ohohohoh
