Out of Nothin'
Yeah yeah turn that beat up well fuck it well fuck it
prince for life
Drop the crown Vick baseboard scrape the floor you
you couldn't get the
Pussy if you raped the whore come on Homes so what
the fuck they pay me for
All them lanes rapping like they be bored misfit prick
shit dip shit ow mat
Black but the chrome lip stick ow well you can suck my
dick lip stick mouth
All them bitches break their neck like oww and the kush
that we push is
Dried in the drought well me I'm in my bag dirty like the
south
Get it dirt bag mutha fucka all she say to me is work
that mutha fucka ok
I'll do exactly what she tell me to I've been to hell and
back this is just
A Rendezvous If she act crazy cuss her out like my
momma do And I go and
Spit it spit it like a fucking llama do Who me I ain't really
all nothin I
Can make it happen Make it something out of nothin
Who me I ain't really
All nothin I can make it happen make it something out
of nothin make it
Something out of nothin make it something out of
nothin who me I ain't
Really all nothin I can make it happen make it
something out of nothing as
A toddler I was cussing always pushing buttons
misunderstood my whole life
The primes kept me running the world is real hungry
number one chasing
Money pain can only chase away the greed I find that
kind of funny black
Alley hair when the needles extra bloody use to be a
friend of mine he died
That was my drug buddy life style catch up just like the
seasons change we

Don't fuck around with lanes scraping up my pocket
change alcohol in my
System makes my breath stink the weed gotta smoke
always makes my fingers
Reek the coke that she sniffs always makes her nose
bleed the party goes
All night until the sun seek this is limo life we don't die
we multiply
Cops are all in do or die like a homicide this is limo life
we don't die
We multiply cops are all in do or die like a homicide
who me I ain't really
All nothin I can make it happen make it something out
of nothin who me I
Ain't really all nothin I can make it happen make it
something out of
Nothin make it something out of nothin make it
something out of nothin who
Me I ain't really all nothin I can make it happen make it
something out of
Nothing
