Me and my baby we're just going round,  
Not getting on luv,not puting it down,  
We had the kind of sweet affair,  
We both felt we needed.

No psychic fusion,just a steady date,  
No grand illusions of the romantic fates,  
She looked for her,I looked for me,  
Don't know why we conceded.

CHORUS:

'Cos we were high,now we're low,  
Tell me why did we go,  
Falling in luv,  
Falling in luv.

Under pressure from family and friends,  
They seem to treasure a storybook end,  
One look at them I realise luv is real overated.

CHORUS Repeated.
