Who's gonna shoe your pretty feet  
Who's gonna hold your hand  
Who's gonna take you out tonight  
To listen to the band

Who'll be the one you love to love  
Who's gonna be your beau  
Who's gonna show you off tonight  
When he takes you to the show

It'll be me babe, it'll be me  
Comin' for thee babe, comin' for thee  
In case there's any doubt  
Just who I'm talkin' about  
It'll be me babe, it'll be me

Who's gonna meet you in the morn  
To court you through the day  
Who's gonna pick you up at eight  
To rock the night away  
-Ahh----rock----the night away

It'll be me babe, it'll be me  
Comin' for thee babe, comin' for thee  
In case there's any doubt  
Just who I'm talkin' about  
It'll be me babe, it'll be me yeah  
I want you to know it'll be me at your door  
It's gonna be gonna be gonna be me babe
