(On my word)
There will never be anyone but you child
(On my word)
No one else will ever do but you
(On my word)
I will never stay from your side
And someday youre gonna be my bride
(On my word)
They say Im the cheatin guy
They say looking girl youll find someone new
So someone new keeps in my heart
But dont believe them cause I know
That deep inside they love you too, honey
(Repeat the 1st verse)

Umm, they say that I am no good
They say that I never would stand by you
So someday when youre givin me
But dont believe them cause I know
That deep inside they love you too, honey
(Repeat the 1st verse again)
