Rock and roll music isn't goin' on the way it should be
We're gettin' in so we can't see the wood from the tree
You know security can be so tight
That I can't get away to play at night

Got to find a place make a little space
Start all over again ooh all over again

So simple when you only need electric guitar
Two records and I'm an international star
They introduced me as the boy next door
But I don't live in that street no more

Well I've got to find a place make a little space
Start all over again ooh all over again
Start all over

I've got to find myself a living doll
Who's always ready when I make my call

Well I've got to find a place make a little space
Start all over again...all over again

I've got to find a place make a little space
Start all over again
Start all over
Rock'n'roll music isn't rock'n'roll etc....
