Tell me, tell me, baby
(Can't you see I'm crying)
Tell me, tell me, baby
(Even if you're lying)

Cause I got to know
I really got to know
I can't go on unless
You tell me so

Said it wasn't you, girl
That I saw last night
Dancing and carrying on
With my best friend
Til the early bright

Tell me you were home in bed
Tell me you were
Down with the flu
Tell me anything, baby
But don't let me find out
That you been untrue

Tell me, tell me, baby
(Can't you see I'm crying)
Tell me, tell me, baby
(Even if you're lying)

Cause I got to know
I really got to know
I can't go on unless
You tell me so

Let me dry these
Tears in my eyes
And have some
Peace in my heart

Tell me the girl
They thought was you
Was a mistake on their part

Tell me you still love me
You do love me
Don't you, baby
Don't you know
Don't you know
I wanna believe in you

Cause I got to know
I really got to know
I can't go on unless
You tell me so

Tell me it wasn't you
That they saw last night
Dancing and carrying on
With my best friend
Til the early bright

Tell me you were home in bed
Tell me you were
Down with the flu
Tell me anything, baby
But don't let me find out
That you been untrue

Tell me, tell me, baby
(Can't you see I'm crying)
Tell me, baby
(Even if you're lying)

Cause I got to know
I really got to know
I can't go on unless
You tell me so

Tell me, tell me, baby
(Can't you see I'm crying)
Tell me, tell me, baby
(Even if you're lying)
