They say I'll love again someday
A true love will come my way the next time
But after you there'll be never be a next time
for me
They say that I'll find happiness in someone
else warm caress the next time
I'll soon forget your kiss
and heartaches such as this will
Just be ancient history
They say that I'm a fool to weep, that
I won't go on losing sleep_the next time
And someone else will mend the heart you've
broken_in two_
But how can I fall in love the next time
When I'm still so much in love_
with you
When I'm still so much in love_
with you
