If there's clouds in the sky
you can dry your eyes
if there's rain up above
you can give your love
every day, every day.

When you smile at me
I can see you giving
all the love that we share
and it's all I'm living for
every day, every day

Every day is sunshine...

And I'm so glad that you're mine
Ahh..

If the rain and the snow and the ice is cold
deep inside love is new
and the sun comes shining through
every day, every day

Every day is sunshine...
La la la, La la la...
