III) Seething the flesh in the river of Phlegethon

Boiling of noxious flames.
Crawling beneath from Heaven's decay.
Hades has sheltered the damned, away from the
supernal circle.
Bathed...Bathing in a heathen's womb.
The Nether hands are placed firmly, pulling angels
down into the lair of the anti-Christ.
Hear the demented screams,
From shadows sentenced to burn!

Seething the flesh
In the river of Phlegethon.
Seething the flesh,

Tearing out the eyes of God.

Boiling of noxious flames.
Crawling beneath from Heaven's decay.
Chiron has united in torture.
Bathed...Bathing in a heathen's womb.
Corroding the sacred sin to except (which, I believe,
should be 'accept,' if I'm interpreting this lyric
correctly) the darkest icon.

Seething the flesh
In the river of Phlegethon.
Seething the flesh,
Tearing out the eyes of God.
