[Verse 1]

Alone I'm walking
Through this empty street
Cold wind is blowing
Whispering she's not your dear

The rain is falling down
Like me in your eyes
Her dreams are all alone
Tonight

[Chorus]

I saw you passing by
And I felt the void is in my heart
Without you
In this cold December Night
Dream of memory
Is all that I have now
To guide me
In this cold December night

[Verse 2]

My heart is playing
Song of last goodbye
Her shadow's dancing
And drowning in the dark

The rain is falling down
Like me your in eyes
Her dreams are all alone
Tonight

[Chorus]

[Guitar Solo]

[Piano Break]

[Final Chorus]
