Hey, this is heaven on earth
And it's riding to you
Heaven on earth
We're inviting you to

Come to the station
To meet the sensation
Eight o'clock tonight

We'll sing you out of your head
And give you the best evening
You've ever had
And even more 'cause you better do believe

The boys in the band show
Who'll give us a hand then
Play you things you will like

These chicks are out of sight
Singing the songs for you
They'll give you dynamite
Doin' the dance they do, they sure do

You should hear these guys when they are playing the
blues
Rhythms and the chants will beat you of your shoes

This is heaven on earth
And it's coming to you
Heaven on earth
We're inviting you to

Come to the station
To meet the sensation
Eight o'clock tonight

These chicks are out of sight
Singing the songs for you
They'll give you dynamite
Doin' the dance they do, they sure do (Hahaha)

You should hear these guys when they are playing the
blues
Rhythms and the chants will beat you of your shoes

This is heaven on earth
And it's riding to you
Heaven on earth
We're inviting you to

Come to the station
