[CHORUS: Lone Ninja (1X)] Swords double edged, I saw trouble ahead In this royal rumble, try not to fall and tumble from ledge Humbly pledged not to self destruct Who else to trust my inner wealth can't be felt or touched [Verse 1: Lone Ninja] Nice guys finish last I'll end your life Line quick and fast slice with knives stick And stab witness the wrath obey bow on your knees I'm vicious and bad you're way out of your league I'm a wolf in sheep's clothing look the speech's golden You won't win, you're shook from thee explosion The short fuse was lit feel the force of pugilist You haught but overthrown in your fort I'm mutinous Assault with major crisis stalk with razors and ice picks It's high risk, so walk the way of the righteous Offer praise to your highness your royal majesty Or endure casualty it'll be pure agony Make sure damage is done there's pure anguish to come Watch you walk the plank; I'm more rank than the slums Drank rum with the treacherous, I'm dodging the traps Fangs and tongues is venomous I'm watching my back From your squadrons attack with my all seeing eye Which is lofty and high make you bawl, weep, and cry I crawl and creep inside your camp thief in the night For sure I'm lethal I'll advance with needles and spikes I'm an iron hand in a velvet glove In violent clash you sliding in trails of blood Won't smile and laugh I hold and I bare a grudge Take final gasps I smite with an assailants thud [CHORUS: Lone Ninja (2X)] Swords double edged, I saw trouble ahead In this royal rumble, try not to fall and tumble from ledge Humbly pledged not to self destruct Who else to trust my inner wealth can't be felt or touched [Verse 2: Lone Ninja] It's element of surprise Attempt to defy I'll see through your deceptive disguise You met your demise behold amazing grace When pressure's applied I know you're saving face Brutality bludgeon it's cruelty in the dungeon True indeed you move foolishly with assumptions You dug an early grave the slugger will firmly raid The hunter is serving bait you tug at the pearly gates The hammer shatters glass but it forges steel I laugh at the aftermath on the haunted hills You're born to get killed

a walking crash collision Got gauntlet and shield I wore
the mask of the villain You lack precision you're in need
of improving You're brash decisions will surely lead to
your ruin I've reached a conclusion I'm the worst you
came across I lurk in ya train of thought you perps
gonna pay the cost You're a prisoner of war I'm the
winner of the brawl You're too bitter to look into the
mirror on the wall Slither on the floor snakes face the
consequences Stomp you senseless I devastate the
trauma's endless I'm armed with vengeance my
wrath's enormous Martyrs are sentenced to everlasting
torment Lone chop sever yeah I'm wicked and
monstrous I won't stop ever until the mission's
accomplished [CHORUS]
