Look out my window I see nothing but snow
And I just can't wait to get back home
I can't imagine being anywhere else
But next to you under the mistletoe
So many things that I want you to know
That I can't show you from miles away
In my mind I see a picture of the two of us together
Baby, I just can't wait

I see you in everything I do
And I'll make this promise now to you

That I'll be home for Christmas, if it's the last thing I
do
Cause it just wouldn't be Christmas Without You

Now snow keeps falling I get closer to you
As I'm passing all these Christmas lights
In a little while, I can't wait to see your smile

I'll be lying with you tonight

I see you in everything I do
I promise that tonight I'll be with you

Because now I'm home for Christmas
My biggest wish came true
This just wouldn't be Christmas Without You
Ya this just wouldn't be Christmas Without You

I see you in everything I do
I promise that tonight I'll be with you

Because now I'm home for Christmas
My biggest wish came true
This just wouldn't be Christmas Without You

Now I'm home for Christmas
My biggest wish came true
This just wouldn't be Christmas Without You
